Dynamics 365 Services
Driving the Best Value from Dynamics 365 Apps
ScienceSoft is an international IT consulting and software development company providing Dynamics 365 solutions since 2016 (Microsoft Dynamics CRM solutions since 2008).

- **15 years of CRM experience, 34 years in IT business**
- **750+ employees**
- **Customers**
  - from 30+ industries and 70+ countries

**Key Facts**
Our Customers

62% of our revenue comes from customers we serve for 2+ years.
Dynamics 365 Apps We Support

We have extensive experience of working with the following Dynamics 365 apps:

- **Dynamics 365 Sales**
- **Dynamics 365 Customer Service**
- **Dynamics 365 Customer Insights**

Add-ins for omnichannel communication:

- E.g., Digital Messaging, Voice Channel, Chat

Microsoft Power Platform:

- Power BI, Power Apps, Power Pages, Power Automate, Power Virtual Agents
Our Dynamics 365 Services

We provide a **wide range of services** to take full care of your Dynamics 365 apps. Our goal is to build automated, scalable, and fast business processes powered with Dynamics 365.

- **Consulting**
- **Implementation**
- **Customization**
- **Integration**
- **Migration**
- **Maintenance and support**
Dynamics 365 Consulting

Analyzing Customer’s business needs and recommending how to address them with Dynamics 365

Defining ways to adapt Customer’s Dynamics 365 solution to the changing sales, customer service and marketing needs

Proactively planning further improvements of features and business processes in Dynamics 365
Dynamics 365 Implementation and Customization

**Deployment**

- **Configuring** Dynamics 365 apps (Sales, Marketing, Customer Service).
- Deploying additional *Dynamics 365 apps* (e.g., Omnichannel for Customer Service, Dynamics 365 Customer Voice).

**Customization and custom app development**

- Creating **custom workflows**, reports/dashboards, email templates, etc.
- Building custom apps to **solve specific tasks** (document generation, lead assignment, delivery planning, property management, etc.).

**Integration**

- With **enterprise systems** (ERP, DMS, ecommerce, etc.) to ensure smooth data exchange and consistent user experience across all systems in use.
Dynamics 365 Migration

We approach migration as an opportunity to improve the extensibility and optimize maintenance costs and efforts for your CRM.

- Migration from an unfitting CRM to Dynamics 365
- Migration from disparate data stores to Dynamics 365
- Migration from on-premises Dynamics environment to the cloud
Maintenance and Support

- **Daily solution administration**: changes in configuration by request, user and access management, setting up workflows, configuring custom reports, installing apps.

- **Data administration**: data upload, data cleansing, data quality management.

- Regular **health check**.

- **Monitoring**: detecting red flags and problems as early as possible and promptly fixing them.

- **User help desk**.

- **Bug fixing** and issue resolution.

- **Quick changes**: implementing changes based on change requests.

- **Ongoing solution improvements**.
