**BUILD-RELATED STATISTICS**

*Test Execution Statistics*

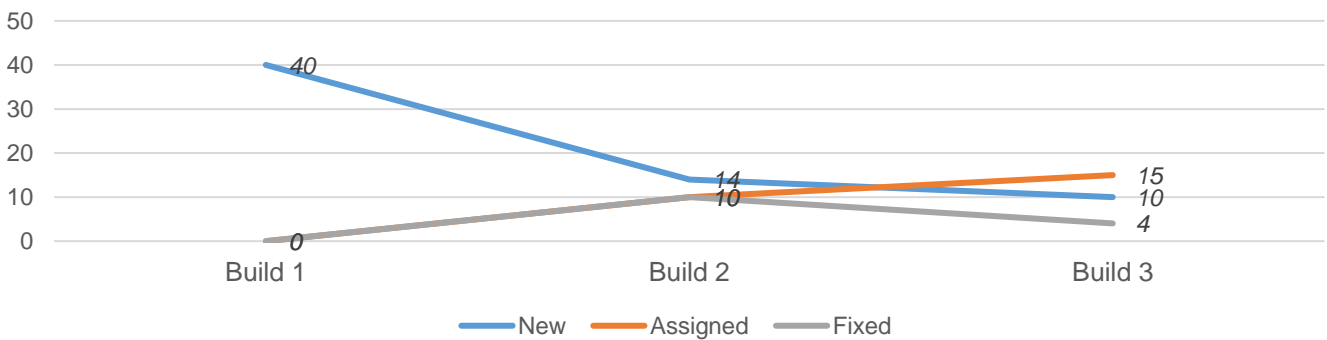

The chart shows test execution statistics. Among 40 tests, 62% passed and 37% failed, were paused, or weren't run. Critical- or Major-severity tests made up 47% of the whole suite.

*Defect Validation Statistics*

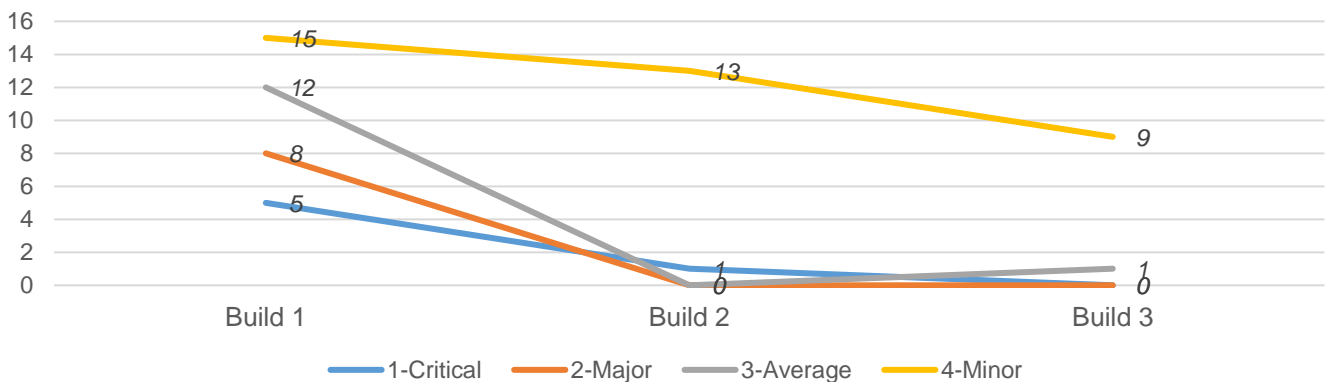

The chart presents defect validation. The majority of defects (78%) were verified and closed. 22% of defects are either Deferred or Re-opened. The list of the re-opened issues actual for build 2 can be found here.

*Overall Issue Dynamics*

*Issue Dynamics by Severity*

The charts show the overall issue dynamics and issue dynamics by severity for build 1 – build 3. A new Critical issue appeared in build 2. Major and Average issues were assigned or fixed. The number of Minor issues decreased. The overall issue dynamics and the issue dynamics by severity are positive.
